OBJECTIVE

I'm a total coding geek, especially when it comes to building websites! I've got the basics down pat, and I love figuring out how to solve problems with code. I'm looking to join a cool team where I can learn from the pros and bring my own fresh ideas to the table. I've been teaching myself all sorts of coding skills by working on my own projects, like HTML, CSS, JavaScript, and even some fancy website building tools. I work best when I can bounce ideas off other people and learn from their experience, but I'm also full of creative solutions! I'm always looking to get better and keep learning new stuff, so you can expect me to write awesome code that makes websites user-friendly and helps us achieve our goals.

EDUCATION

Bachelor of Software Engineer

National University of Modern Languages, Islamabad   2021 - Expected 2025

Intermediate in Pre-Engineering, (Marks 80%)

Punjab Group of Collage, Multan   2019 – 2021

Matriculation in Science, (Marks 76%)

Multan Junior School, Multan   2017 - 2019

SKILLS

Technical Skills	C++, Java, SQL, HTML/CSS, JavaScript, React, PHP, Python
Soft Skills	MS Excel, MS Word, MS PowerPoint, MS Visio
Other Skills	Leadership, Team work, Effective Communication

EXPERIENCE

I'll take charge of building a mobile app, from the first brainstorm to when it's ready for everyone to use. We'll work together as a team of designers and programmers to make sure the app does exactly what we planned and what people will find helpful.

Collaborating closely with a multidisciplinary team including designers and fellow developers to ensure alignment with project goals and user needs.

PROJECTS

Car Parking Project. Developed a java project for storing data of vehicles for a parking lot, managing the data and tracking the vehicles parked in the parking lot based on their data. (Try it here)

Personal Portfolio. Developed a personal portfolio website using HTML, CSS and JavaScript incorporating a contact form linked to Firebase for seamless communication. (Try it here)

EXTRA-CURRICULAR ACTIVITIES

- Currently enrolled in Microsoft Learns Web Development program, actively preparing for advance proficiency in web development.
- Dedicating myself to the Muslim community at SITC Society, collaborating with fellow students and participating in programs that promote Islamic knowledge and fresh perspectives within our faith.

Certifications / Challenges

- Meta Front-End Developer by Meta on Coursera   July 23, 2023
